

## 2M SQUARE PUSH UP PARASOL - INSTRUCTION

### OPENING THE PARASOL:

1. Pay attention to persons and objects in the vicinity!
2. Push the hub upwards to the top, the mechanism automatically secures the parasol
3. Unscrew the connecting knob, the lower pole can be extended or contracted to adjust the height of the umbrella.

### CLOSING THE PARASOL:

1. Pay attention to persons and objects in the vicinity!
2. Pull the hub downwards to close the parasol

### Notice:

- DO NOT open or use parasol in snow, rain or bad weather conditions.
- DO NOT use parasol in winds above **28.4 km/h**. Using the parasol beyond the above mentioned wind speed is not completely safe and it needs to be closed.
- Parasol must be firmly fixed to the parasol base.
- Always allow the parasol to dry when open and before storage to prevent the formation of mould and discolouration.
